Product User Manual

Using the Device

This product allows you to read text using the same method as the Braille information terminal input system.

1. Using the Braille Pads

- Place your index, middle, and ring fingers of both hands on the six Braille pads embedded in the device.
- Feel the raised Braille patterns to read text.

2. Using the Joystick

- **Button Click:** Click the joystick button to pause reading. Click again to resume.
- **Adjust Reading Speed:**
 - Tilt the joystick left to slow down the speed,
 - Tilt it right to increase the speed.
- **Navigate Sentences:**
 - Tilt the joystick up to move to the next sentence,
 - Tilt it down to go back to the previous sentence.

Using the Internet EBOOK

1. Accessing the Platform

- Open the Brilliant Braille platform.

2. Browsing and Selecting a Book

- Search for the book you want and click to select it.

3. Starting to Read

- Click the joystick button to start reading in Braille.

Precautions

- Wash your hands before use and keep the Braille pads clean.
- Take breaks during extended use to avoid hand fatigue.

>	Greater Than	⠼ ⠦

Usage Instructions

1. For Visual Impairment Accessibility

- This correspondence table provides a complete representation of characters, symbols, and numbers in Braille.
- Utilize Braille embossers or tactile devices to render these characters for end users.

2. For General Use

- Each English letter, number, and symbol has its matching Braille character for easy cross-reference.
- Ensure consistent formatting and spacing when preparing materials for Braille translation to avoid misinterpretation.
